MUNICIPAL EXCESS LIABILITY JOINT INSURANCE FUND
COMMENTS AND RECOMMENDATIONS

Suggestions to Management:

Economic Conditions and their Effect on Fund Operations

The period of low interest rates we are experiencing during Covid has negatively affected the Fund's investment yield and Net Position. Investment income has declined from \$1,754,444 in 2019 to \$962,896 for 2020. The Fund had taken action to improve investment income prior to the start of the Covid epidemic by forming the Joint Cash Management and Investment Program (the "JCMI"). The Fund's proactive strategy mitigated the effect of the swift decline in interest rates and improved the Fund's financial position had such actions not been taken. In addition, the Fund has created a group to handle Covid work related claims throughout the MEL and affiliated Joint Insurance Funds in order to uniformly manage these claims and efficiently and effectively provide information to reinsurers.
